We regularly monitor our stock and adjust production to help meet your emergency needs.

We're your trusted partner, working 24/7 when you need us.

Connect

Trust Cooper Power Systems as your partner.

In an early 2009, more than 700,000 homes were left without power in Kentucky due to an ice storm. One hundred and one counties and 75 cities were declared a state of emergency.

Ricky Chaffin, Utility Sales Representative with ESE Utility Supply, contacted Cooper Power Systems to purchase materials his customers were going to need to restore power. "The very professional and highly trained staff at Cooper was constantly available to answer our questions, fill our orders and expedite shipments so that we could in turn provide the necessary assistance to our customers. It is very reassuring to know that in a time of crisis we have a partner, such as Cooper Power, that we can turn to when we need assistance in helping meet the needs of our customers as they work to restore service to their customers."

Predict, Protect, Connect

Cooper Power Systems is dedicated to providing predictable and dependable service to our customers.

Assisting affected customers in protecting valuable assets is of utmost importance. That means customers receive the benefit of a coordinated team effort from all areas of Cooper Power Systems.

Connect with Cooper Power Systems for all your storm restoration needs.
